

Introduction

DTCC's Margin Transit Utility is compatible with various margin call matching systems and links to custodians, dealers, administrators, central security depositories and buy-side participants using standard messaging formats (ISO/CDTS Messages via SWIFT Network). Users that want to configure a third-party application to receive and process the data require access to MTU's ISO messaging specification.

In order to address this requirement, MTU has created a Community on Swift's MyStandards web platform. MyStandards is a collaborative web platform that functions as an industry repository of formal specifications. This allows MTU to deliver its message specification in a way that is secure, well-defined, and consistent.

Registering on MyStandards

In order to download the MTU message specifications in either PDF or EXCEL format complete the following steps:

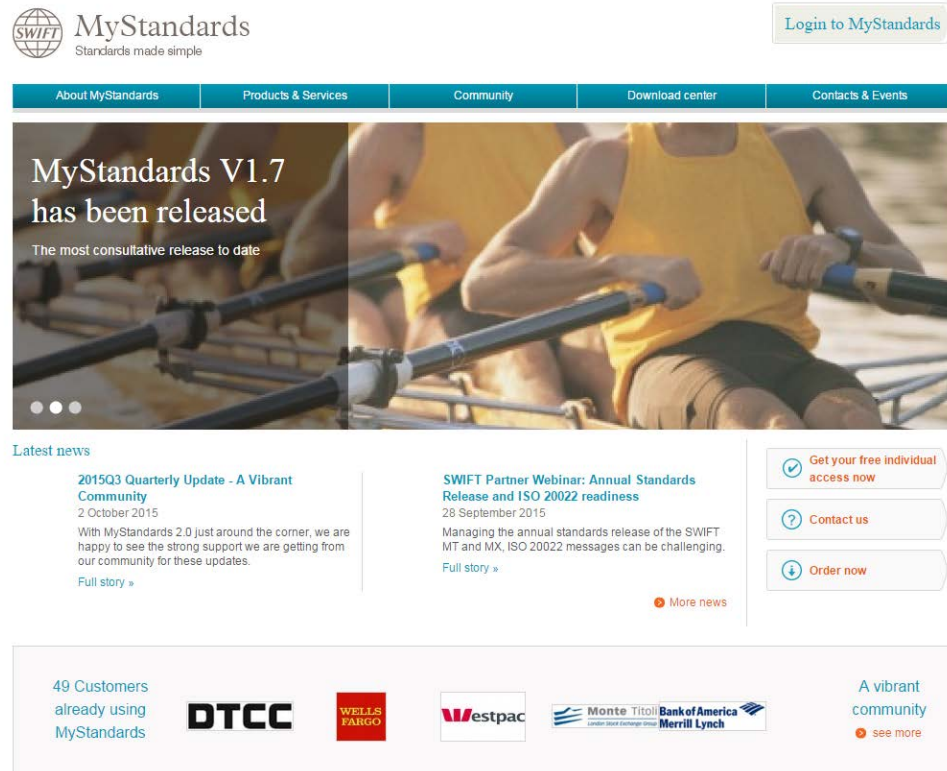

1. Go to the Swift MyStandards web portal at: <https://mystandards.swift.com/>
2. Click the "Get your free individual access now" link to begin the registration process.
3. Complete the registration process.
4. Once your registration is confirmed, log in to the Swift customer portal.

Note: The completed login process redirects you to Swift's corporate portal. You must return to the MyStandards main page in order to access the message specifications.

Using MyStandards

The screenshot shows the MyStandards web portal. At the top, there is a navigation bar with links: About MyStandards, Products & Services, Community, Download center, and Contacts & Events. A prominent banner reads "MyStandards V1.7 has been released" with the subtext "The most consultative release to date". Below the banner, there is a "Latest news" section with two articles: "2015Q3 Quarterly Update - A Vibrant Community" dated 2 October 2015, and "SWIFT Partner Webinar: Annual Standards Release and ISO 20022 readiness" dated 28 September 2015. To the right of the news section are three call-to-action buttons: "Get your free individual access now", "Contact us", and "Order now". At the bottom, there is a footer area with the text "49 Customers already using MyStandards" and logos for DTCC, Wells Fargo, Westpac, Monte Titoli, Bank of America, and Merrill Lynch. A link "A vibrant community see more" is also present.

Joining the DTCC MTU Community

After logging in you are taken to the MyStandards main landing page. From this page your next step is to request access to DTCC's MTU Community.

To request access you must:

1. Click Homepage in either the top navigation menu, or from linked icon directly below it.
2. Next, enter DTCC in the search field, or select the MTU homepage icon.
3. Once directed to the MTU landing page, select the Communities tab, and click the "Request Access" button to join MTU's community.
